Kassidy Block

(912)202-8934 | kassidy.m.block@gmail.com | Columbia, SC

Front-End developer specializing in web applications. Creative expertise with experience in critical thinking and teamwork. Looking for positions with innovative problem-solving opportunities.

Project-based Experience

Senior Capstone Project 1
Amazon Alexa Survey, Cognito Forms
Team member in charge of front-end development and creating visuals.
- Created a Node.js AWS Lambda to create, take, and share custom surveys using voice commands via Amazon Alexa.
- Worked directly with an external client for requirements and design choices.
- Designed custom visuals for Alexa Show.

Senior Capstone Project 2
Rating Professors Web App, ProfessOrNot
Primary front-end developer for a web app for students to rate professors.
- Developed the final version using vue.js, proof-of-concept created in React.
- Implemented user profiles, login screens, reviews, and quizzes.
- Practiced agile workplace practices; scrum standups, sprint planning/review, retros.
- Gained experience with RESTful api and swagger.
